# About DRMZ Stake Pool

DRMZ is one of over 3000 stake pools that currently decentralize the Cardano blockchain.

## DRMZ Pledge

Our Pledge is now 20,000 ADA, up from 10,000 ADA.

We will continue to increase the pledge as DRMZ grows.

## Guaranteed Security

Dedicated IT resources ensure security, redundancy, and continuous operation in the event of any host failure or crash.

## High Availability

We have deployed multiple nodes across the planet with no less than 4 dedicated CPU cores, 24GB RAM attached to High-Speed storage, and employing a BP-Node, 3 Private Relays, and 2 Public Relays.

## Low Fee Structure

DRMZ offers low fees, 340 ADA Fixed Cost + 1% Margin fee, which helps us meet operation expenses while assuring that you get the maximum returns from your investment.

## ▼ Is staking ADA is safe?

100%! Cardano's "Liquid Staking" ensures:

1. Your funds are never locked, for any reason
2. Your ADA remains in your custody, which is "delegated" to DRMZ from your private wallet.
3. Cardano has no slashing mechanism

## • Why stake with DRMZ?

1. Earn Passive ADA Rewards (~5% APY)
2. Support decentralization by staking with a single pool operator
3. Promote wider web3 literacy and education

We host monthly IRL Meetups & Twitter (X) Spaces
